MCN Leadership Conference • May 8, 2024

What conditions contributed to your staying as long as you did?

Why Belonging?

The need for a focus on belonging, which is at the heart of DEI, is more pronounced than ever.

Our diverse and complex identities, experiences, and perspectives are not only essential aspects of human dignity but also integral to fostering creativity, innovation, and sustainable progress.

Studies show that industry leaders recognize DEI is more than a social-justice imperative. It's a core enabler for growth and value creation.

- It's profitable
- It matters to employees
- It fosters innovation
- It helps decision making

DEI work contributes to talent retention, employee engagement, and employee well-being. Without it, companies face legal and financial risks.

- Increased job performance
- Increased employee satisfaction
- Saves money
- Saves time

Dignity is the foundation of how we relate to each other.

We honor each other's dignity by creating the conditions for belonging for each other so that each person can show up as their full selves and reach their fullest potential.

Creating Belonging

How do we
create the
conditions for
belonging?

Identity Affirmation

Will my complex
identities be affirmed
and valued?

Equity

Will I be treated
fairly and with **equity**
by you?

Responsiveness

Will you support me
by **responding** to my
needs or bias when it
shows up?

Relationships

Do you value our
relationship?

Respect

Do you **respect** my
identities, lived
experiences &
culture?

Agency

Can you honor & uplift
my sense of **agency**?

Conditions for Belonging

Identity Affirmation	+	Equity	+	Responsiveness	+	Relationships	+	Respect	+	Agency	=	BELONGING
Fear		Oppression		Mistrust		Isolation		Resistance		Hopelessness		OTHERING

Belonging + Trust = Retention

Belonging + Trust = Retention

1. Form a group with two neighbors, introduce yourselves, get your list of strategies
2. Select **one** of the strategies for strengthening the conditions for belonging in the workplace.
3. Discuss as a group
 - How does this strategy connect to the equation above?
 - What would this look, sound, and feel like in your organizations?

How can we spark conversations around conditions for belonging to create meaningful change?

1. Focusing on the same strategy as before, identify **two things** at work in this strategy
2. Label your matrix
3. Where do you think your team members would place their dots?
4. How might you use this matrix to start a conversation with your team and ground the strategy in their reality?

4. How might you use this matrix to start a conversation with your team and ground the strategy in reality?
